

## Chemetal Brass & Brass Look close match designs and price range.

**Brass Design**                      **Closest matching Chemetal #.**

#305 \$\$\$\$	#912 \$	#925 \$	#934 \$	#935 \$	
#310 \$\$\$\$	#626 \$\$\$	#931 \$	#704 \$\$	#904 \$	#924 \$
#325 \$\$\$\$	#629 (new) \$\$\$				
#337 \$\$\$\$	#629 (new) \$\$\$	#620 \$\$\$			
#338 \$\$\$\$	#609 \$\$\$				
#803 \$\$\$\$	#903 \$	#703 \$\$			
#804 \$\$\$\$	#904 \$	#704 \$\$			
	#915 \$				

These are options to Chemetal's Brass designs in the 300 and 800 Series. The reason for this is two-fold:

- 1) Recent, significant price increases in brass.
- 2) Brass-based designs are 2' feet wide, our "brass look" designs are 4' wide.

**Price Guide:** (ballpark, does not include shipping, etc.)

\$ = \$6-9.00 sqft.                      \$\$ = \$8-11.00 sqft.  
 \$\$\$ = \$13-18.00 sqft.              \$\$\$\$ = \$28-50.00 sqft.

The most affordable options are 900 Series Anodized Classics, followed by 700 Series HPL Classics and finally, 600 Series Architectural Metals, which are printed designs on aluminum.

Brass is a beautiful metal and there is no easy replacement for these designs. This guide is only a recommendation, designs will appear differently. It is up to you to obtain samples and determine what's best for your project.
