

4' x 8' sheet

Chemetal Triangles

Product Info

☐ #901-T ☐ #903-T ☐ #943-T
Clear Triangles Brass Triangles Bronze Triangles

Triangles is an embossed design made on mirror-like Polished Aluminum, Brass Aluminum and Bronze Aluminum.

Additionally, this design can be produced on any 900 Series metal (solid anodized metal).

Each "square" is 4" x 4". Sheet size is 4' x 8'. Anodized Aluminum, backer option.

Note: Each triangle is more lightly embossed near top, this is inherent in design and not a defect. Thus, sheet is directional, two sheets side by side or end to end should be installed in the same direction. Sheets are marked with directional label.
