2 FOREST FRIENDS

Arborite's Endangered Woods Collection emulates popular wood patterns commonly chosen for their intricate grain details. Afrosia, Macassar, Rosewood and Tekka represented in multiple finishes offer the rich color, texture and character found in unique wood species with added benefits of environmental agency, GreenGuard Certification and increased durability.

3 SPECTER REFLECTOR

Ghost Mirror by Pulp Studio is a laminated mirror product that allows light transmission and double-sided viewing in an installation where both reflectivity and visibility through the glass are desired. Perfect for hospitality or retail interiors, variations are achieved with custom levels of visibility.

5 SMOKY METALS

Chemetal added brushed golden aluminum and brushed stainless steel to its collection of HPL classic metals. The solid metals are available in 40 design choices and include brushed, stainless, brass, copper and bronze colorways. Classic Metals can be ordered with a laminate backer for install ease or as solid anodized aluminum ideal for bending and creating clean edges.
