ATLANTA, Ga. - Trending colorways and unique textures make the InteriorArts new laminate collection different than any other. This new range of 37 design driven high pressure laminates features distressed industrial looks, very usable neutral tones and popular light to medium wood grains. These woodgrains have the look and feel of real wood with the fabrication ease of laminate. Plus, impressive texture makes the entire collection stand apart.

These new 37 designs are part of the InteriorArts collection of over 90 HPL design laminates. They're GREENGUARD certified for low VOCs and available in 4' x 8' sheets. Ideal for vertical use in interior spaces. See them all at ialaminates.com.

Chemetal / Treefrog /InteriorArts

Chemetal, Treefrog, and InteriorArts are a massive collection of design materials in metal, wood and laminate. Each one is a product line, or brand, of its own and all are sold from the same place – a family owned business focused on specialty laminates, committed to customer service, and in business for over 50 years.

Chemetal is the primary design material. The company makes many unique metal designs in-house - Made in USA - brushing, ageing and oxidizing metals by hand and machine, and sourcing other metals and materials, including Treefrog and InteriorArts, from the best suppliers in Germany, Italy, Japan and Asia. Start at Chemetal.com.
